Hi all, I have tried to respond to Gina's questions below. FYI, Ravi and Karen are both out of the office for the rest of this week.

Subject: BaP

Hi – BaP was slated to begin ERC review tomorrow.

I know pieces were submitted to Vince for review.

Where are we on this?

Ravi submitted the proposed response to comments for management review several weeks ago.

We have submitted pieces of the revised assessment to Vince for review. This includes the cancer hazard and dose response pieces. Karen and I are working on reviewing and revising the non-cancer hazard and DR sections. We have the pieces in from the team members but they need some work. (I am behind a few weeks due to preparations for the dermal slope factor meeting.)

Has it been reviewed in its entirety yet? No.

Can it be submitted to ERC tomorrow? Maybe the cancer portion (if Vince thinks it is ready to go), but the noncancer section has not be finished, and the supplemental information is also not finished (not sure if this is part of ERC review).

Thx.

Gina
